

Pressure Channel Hose Kit / Instrumentation

Low Temperature Pressure Channel Hose Kit

High Temperature Pressure Channel Hose Kit

The Pressure Channel Hose Kit compliments Dyne Systems' DynPro₂ Data Acquisition and Control System. Available hose types include:

Low temperature hoses

Polymeric core tube, fiber reinforcement and abrasion-resistant black urethane cover.

High temperature hoses

Stainless steel and Type 2 silicone rubber composite sleeve.

Refer to the chart below for hose types, lengths and quantities available:

| Hose Type | Hose Length | | | Quantity |
|--------------------------|----------------|----------------|----------------|---------------|
| High temperature | 15 ft (4.57 m) | 25 ft (7.62 m) | 50 ft (15.2 m) | 8 |
| Low and high temperature | 15 ft (4.57 m) | 25 ft (7.62 m) | 50 ft (15.2 m) | 6 low, 2 high |

Everything you need to succeed
